

ACSYS MoPro

The Acsys MoPro (Mobile Programmer) is a MOBILE KEY PROGRAMMER outfitted with Bluetooth connection to facilitate communication between the Acsys Key and ANY Smartphone. The Acsys MoPro allows users at remote locations to download access rights as well as upload all of their previous access logs in REAL-TIME to the control center. MoPro removes the need to plug in the key in USB/IP programmers. It is the best answer for job site security, MTTR tracking, and supplier management anywhere, anytime, without wires.
